

Decking As Cladding

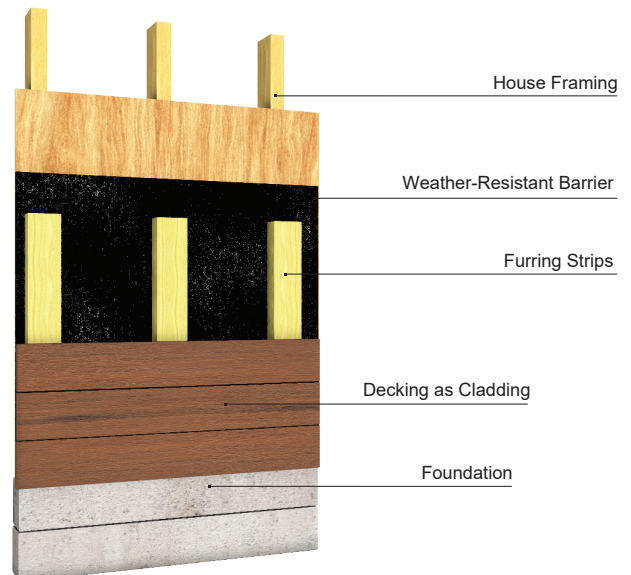

A New Use for a Time Tested Material

Consider the beauty of PVC Deck used as a cladding rain screen for the ultimate curb appeal. The combination of premium natural hardwood aesthetics, and the durability of advanced polymer technology, backed by industry-leading warranties, will add brilliance to any home.

Cladding deck boards use a square shouldered profile and are 1" x 5/2"
All colors available in 16' and 20' lengths. Some colors also available in 12' lengths

100% SMARTER THAN WOOD™

FEATURES AND BENEFITS:

- CCRR-0266 (Code Compliance Research Report) available for the colors to the right.
- Premium, low-maintenance alternative to traditional and exotic wood
- No painting or sealing needed for protection
- Resistant to mold, mildew and moisture damage
- Stain, scratch & insect resistant
- Will not split, splinter, rot, or crack
- Can be installed with Cortex® to nearly eliminate the appearance of fasteners
- Made in the USA

BEST PRACTICES:

- Must be installed over a weather-resistant wall
- Paint the furring strips a dark color to minimize their view
- Fasten 16" OC over 2x4 pressure treated furring strips with approved fastener options
- Leave a minimum 1/8" gap between deck boards
- Install butt joints tight
- Read the full installation guidelines

1 TYPE 1

Fastening

From hidden fasteners for a clean, fastener free surface to color matched screws for a seamless look on your PVC deck, manufacturers provide lots of fastening options. Fasteners come with a 25-year warranty. For more on fastening and finishing touches, visit manufacturer's websites

1 TYPE 1 fastener

Hidden fastener system that can be installed pneumatically or using a drill. Provides a fastener free surface. Designed exclusively for PVC grooved boards.
